DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claims 1-10, drawn to a placement system.

Group II, claims 11-15, drawn to a wafer holding frame.

Group III, claims 16-18, drawn to a film for wafer holding frame.

Group IV, claims 19-27, drawn to a method for populating a substrate.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The placement system do not need the particulars of the wafer holding frame recited in Groups II, the film for wafer holding recited in Group III or the method steps recited in Group IV in order to populate the substrate with electronic components. Group II does not need the film for wafer holding recited in Group III or the method steps recited in Group IV to make wafer holding frame. Group III does not need the method steps recited in Group IV to make a film for wafer holding.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3729

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
